

# BIOENERGY AND FOOD SECURITY

## Bioenergy and Food Security Overview

GCP/INT/020/GER

April 2007

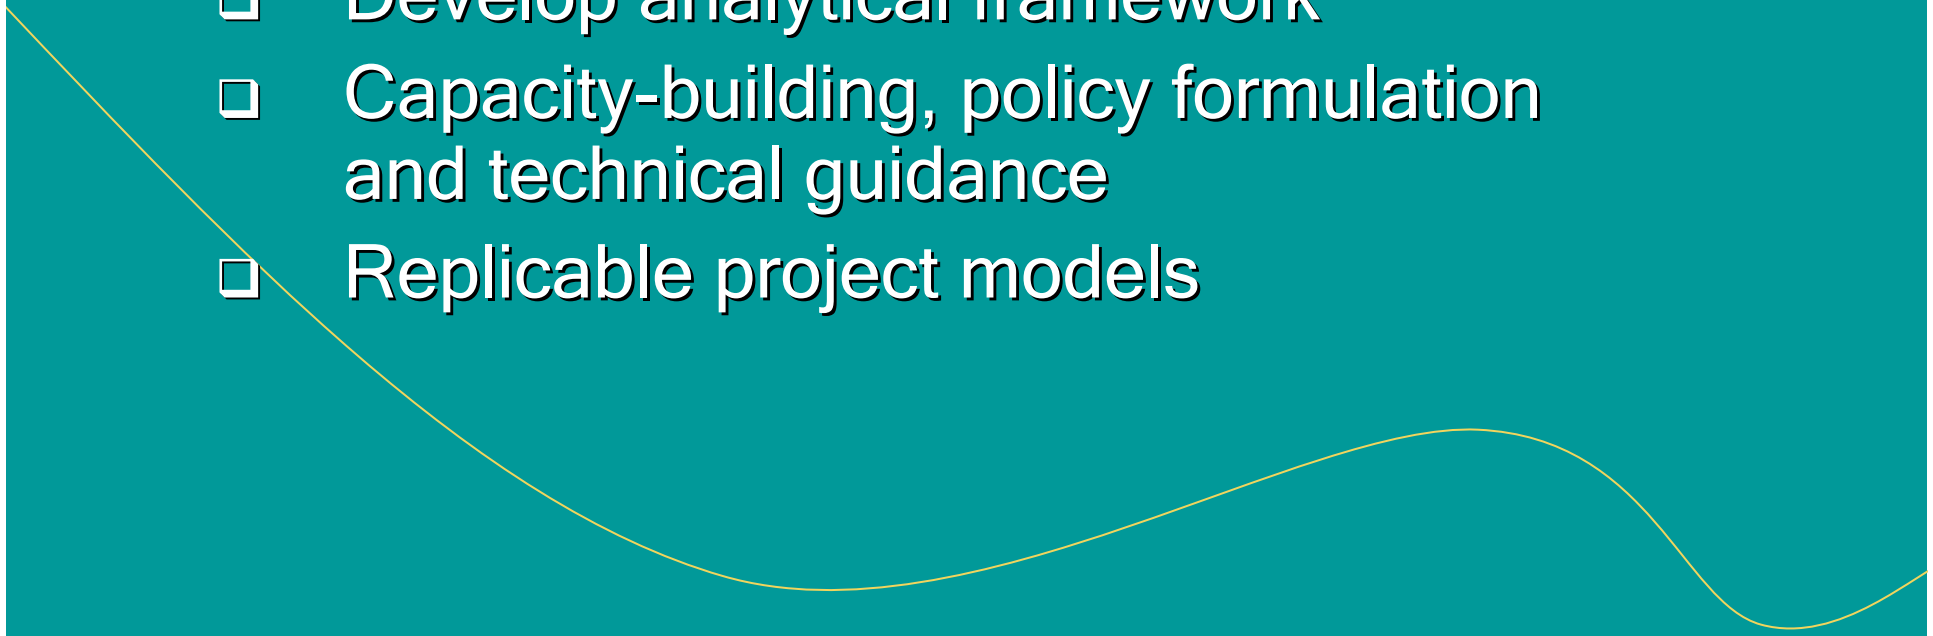

## Project Task Force

- ❑ Help identify and promote linkages between the project and your own areas of work
  - ❑ Attend and participate in TF meetings
  - ❑ Provide technical comments and guidance on technical reports, draft ToRs and project documents
  - ❑ Advise on strategic direction and activities of project
- 

# BIOENERGY AND FOOD SECURITY

## Project Overview

- ❑ Guidance on potential effects of bioenergy production on food security in developing countries
  - ❑ Develop analytical framework
  - ❑ Capacity-building, policy formulation and technical guidance
  - ❑ Replicable project models
- 

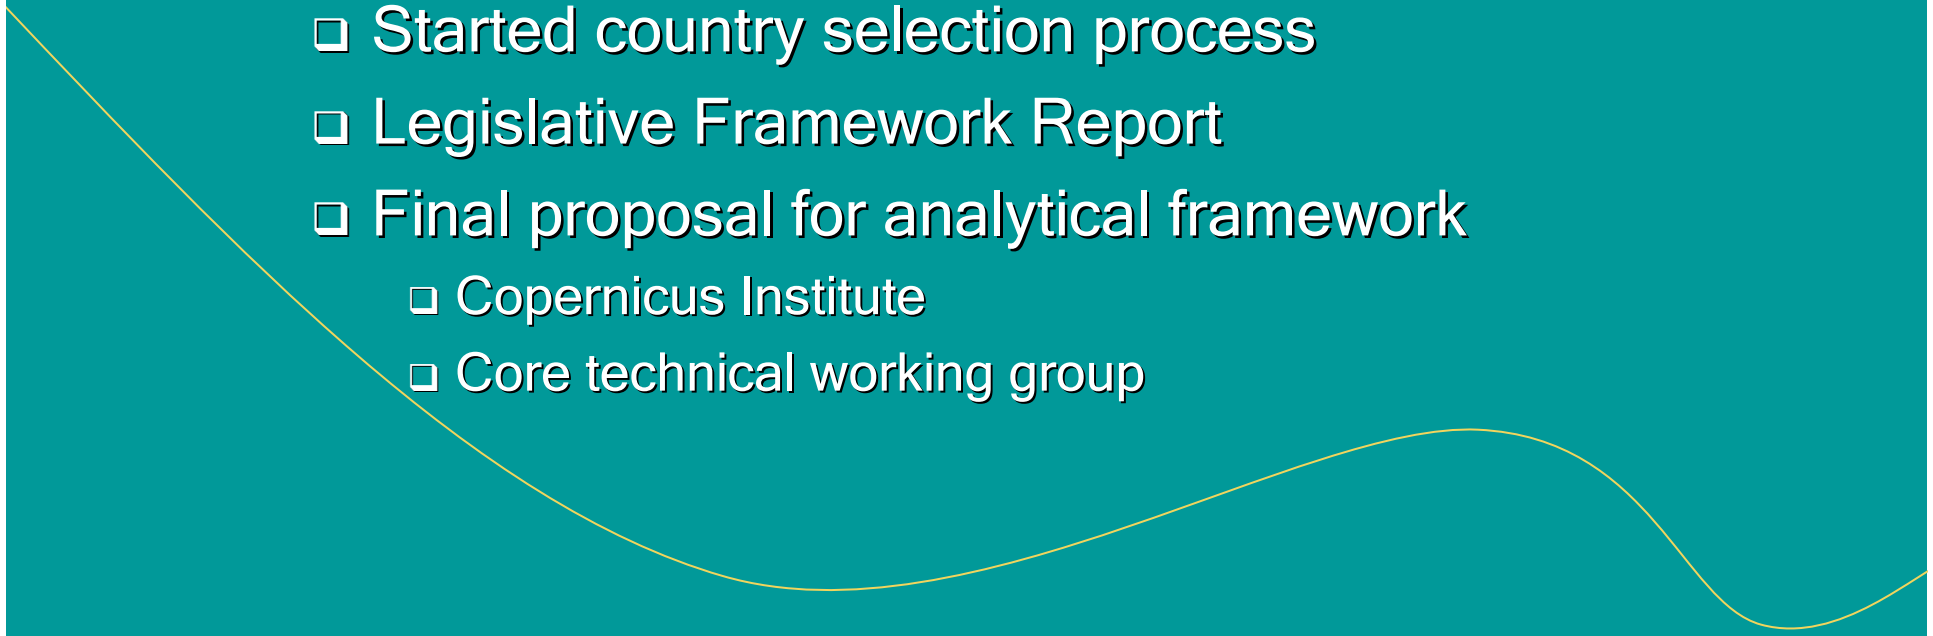

# BIOENERGY AND FOOD SECURITY

## Project Overview

- ❑ Mainstream food security and bioenergy potentials
  - ❑ Latin America, SSE Africa, SE Asia
  - ❑ Target 3-5 partnership countries linked to regional networks
  - ❑ Field activities in 3 countries through national bioenergy teams
  - ❑ LoAs -> institutional networks
- 

## Progress Report

- Operational 11 Jan 2007
  - Staffing - introductions
  - Project Updates
  - Started country selection process
  - Legislative Framework Report
  - Final proposal for analytical framework
    - Copernicus Institute
    - Core technical working group
- 

## Country Selection Process

- Selection criteria
    - Country typology
    - Biomass potential and energy industries
    - Food security context
    - Request to FAO
  - Principal and network countries
- 

# BIOENERGY AND FOOD SECURITY

<u>AMERICA</u>	<u>AFRICA</u>	<u>ASIA</u>
Argentina	Malawi	Indonesia
Bolivia	Mozambique	Malaysia
Colombia	Nigeria	Myanmar
Costa Rica	Tanzania	Thailand
Chile		Vietnam
Ecuador		
El Salvador		
Peru
